# Data Warehouse Scenario 1: Labor Charged to the Project

Problem   The project manager for program code H350 would like to know who has
                     charged labor to his project in the last month.

Solution   To answer his question, you may run a Quick Report. Upon logging into Data
                     Warehouse, the following screen displays. Click on the *Quick Reports* icon.

Data Warehouse Scenario 1: Labor Charged to the Project,
Continued

Description detail

The *Quick* screen displays. Click once on the *Financial Management* icon. Then, click on the down arrow in the *Fiscal Year* field to select the year. You must also enter a *Cost Center*; you may enter the full four-digit cost center or the first two alpha-numeric characters and an asterisk (*) for a wild card (refer to the example below). Click on the *Run* button.

Data Warehouse Scenario 1: Labor Charged to the Project,
